Last updated 10/29/15. The information in this guide is subject to change. The universities may require additional lower division courses beyond those listed or articulated. Please review a current catalog of the campus of your choice and consult with a counselor.

General Veterinary School Information about the application process is available on the web at http://www.aavmc.org/vmcas/vmcas.htm. GRE information is available at http://www.gre.org/. Required coursework varies from school to school. Students should contact a specific campus to be certain they are meeting the requirements for the individual school where they wish to apply.

UC DAVIS SCHOOL OF VETERINARY MEDICINE – Based on 2012-13 articulation agreement

Basic Requirements for Admission: Applicants must have completed at least 108 quarter or 72 semester units at an accredited college or university before entering the School of Veterinary Medicine.

Required GPA: The minimum GPA is 2.50 for both the required sciences and cumulative college coursework. However, applicants admitted in fall 2011 had a mean cumulative GPA of 3.54.

Additional Requirements and Considerations:
- All applicants are required to take the General Test (Verbal, Quantitative and Analytical Writing) of the Graduate Record Examination (GRE). The GRE must be taken by September 30 of the year the application is submitted & within 5 years prior to application.
- Animal/Veterinary experience – substantial experience with animals is required. Activities must entail relevant veterinary and animal experiences with types of activities that give an appreciation and understanding of the profession of veterinary medicine. A minimum of 180 hours of experience must be met in order to have an application evaluated. Admitted students have an average of 2,500 - 3,000 hours of veterinary-related experience, which includes working with veterinarians.
- Three letters of evaluation
- Personal statement of motivation/career goals
- Interview

**Lower Division Subject Requirements:**

**SRJC Courses:**

<table>
<thead>
<tr>
<th>CHEMISTRY 2A+2B+2C (General Chemistry)</th>
